OPTICS

Use the cork surface to promote your business.

You can choose between an upright imprint

or a circumferential imprint.

You can take advantage of the whole area and advertise using words and graphics.

Naturally, the font should be clearly legible.

A simple, not overly detailed graphic stands out most strongly on the cork background.

Regardless of the quantity of corks ordered, we follow your design to give your corks a distinctive stamp.

DIMENSIONS

Usable area – Side printing

Cork size		Max. Width	Max. Circumference
Wine corks	38 x 24mm	35mm	65mm
Wine corks	44.5 x 24mm	40mm	65mm
Wine corks	49 x 24mm	43mm	65mm
Sparkling wine corks	48 x 30.,5mm	40mm*	90mm

* 17mm to the neck

Usable area – Head burn

Maximum diameter of a round cork signet is 20mm for wine corks and 25mm for sparkling wine corks. Signets which are square in the base area, are correspondingly customized. However, the diagonal must not exceed 20mm.
